Rock Color Descriptions

Cove - Green and black lichens with green
moss

Cherokee - Deep red to brick red sandstone
with salmon accents

Sunrise - Blonde sandstone with veining of
gold, rose and lavender

Autumn Gold - Gold quartzite with streaks of
dark gold, gray with a silver white back-
ground with a minor amount of shiny mica

Buckskin - Brown, gold, and light gray
quartzite with hues of soft blues

Storm Mountain - A light to dark gray quartz-
ite with accents of golden brown veining

Windridge - A weathered rich dark brown
quartzite with a wide array of lighter colors
including rust, copper, and tan

Baker Gold - A gray and gold naturally frac-
tured rectangular quartzite with gold edges

Pink Oak - A light pink sandstone
Sage Green - Light green sage brush color

Slick Rock - A shiny uneven rock with shades
of reds, oranges, browns, grays, and gold

Sunrise Select - Larger pieces of sandstone
with concentric veining of gold, oranges, and
rose - has appearance of rising sun

Utah Granite - Salt and pepper granite as
seen at Temple Square

Lava - Red colored and very porous

Rose Quartz - Light pink to dark pink with
white tints and traces of brown

Basalt - Dark gray to black hexagonal
shaped columns

Rose Ice - Rose rock covered with shiny
silver mica

Green Ice - Green rock covered with shiny
silver mica

Feldspar - Orange-red color with flecks of
black and silver mica

Moss Lava - Smaller lava boulders with
green, orange and white lichens

Lava Lace - Lava boulders with lace pockets
and pools

Rainbow - A sandstone with unique gold and
brow coloring and striations

Pumice or Feather Stone - A light weight
gray volcanic stone, very porous

Green Jade - Idaho quartzite. Beautiful
green stone with silver streaks. Looks great
wet.
